

FTM 150-1050 S twin

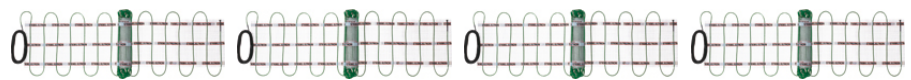

Quick and easy to install.

The thermofloor FTM-S twin floor tempering system can be used anywhere as a convenient heating system. It is particularly suitable as a secondary heating system in bathrooms, for example. Because the floor heating material is extremely thin, it can be easily retrofitted when older buildings are renovated. The pleasant heat underfoot is generated by a mat that is just 3 mm thick and laid directly underneath the floor covering. The FTM-S twin heating mats follow the contours of any room perfectly. The self-adhesive fabric mesh makes installation easier because the mat does not slip when the final floor covering is put down. The mats can be adapted when they are being laid so that even rooms with awkward angles can be properly fitted with the floor tempering system. With its output of 150 W/m², the thermofloor system provides a pleasant floor temperature.

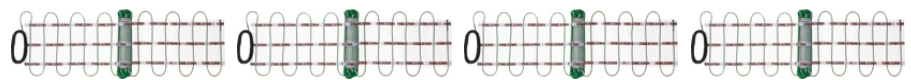

The most important features

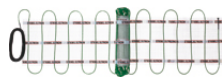

- Independent of the existing heating system
- Suitable for new build, renovation and modernisation
- Easy and quick installation
- With variable temperature selection
- Self-adhesive fabric mesh, heat conductor attached with adhesive strips
- Heat conductor spacing 7.5 cm

Type	FTM 150 S twin	FTM 225 S twin	FTM 300 S twin	FTM 375 S twin
Type				
Part no.	221400	221401	221402	221403
Connection output	150 W	225 W	300 W	375 W
Surface	1 m ²	1,50 m ²	2 m ²	2,50 m ²
Length	2 m	3 m	4 m	5 m
Power connection	1/N/PE~230 V	1/N/PE~230 V	1/N/PE~230 V	1/N/PE~230 V

Type	FTM 450 S twin	FTM 600 S twin	FTM 750 S twin	FTM 900 S twin
Type				
Part no.	221404	221405	221406	221407
Connection output	450 W	600 W	750 W	900 W
Surface	3 m ²	4 m ²	5 m ²	6 m ²
Length	6 m	8 m	10 m	12 m
Power connection	1/N/PE~230 V	1/N/PE~230 V	1/N/PE~230 V	1/N/PE~230 V

Type	FTM 1050 S twin
Type	
Part no.	221408
Connection output	1.050 W
Surface	7 m ²
Length	14 m
Power connection	1/N/PE~230 V
